

WOOD/SERIES

WS/20DT

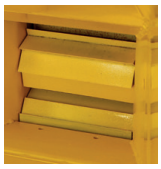

POWERFUL KOHEL ENGINE

Its KOHLER ST.V 56HP engine can chip wood up to 20 cm in diameter using the full power of the Cutting Disc, equipped with two adjustable blades.

MOUNTING ON ADJUSTABLE TURRET

The 270° swivel turret mounting allows for better optimisation of the shredder's orientation on all your sites, providing you with visibility and working comfort.

DOUBLE FEED ROLLER

Its double feed roller ensures effective material feeding for efficient chipping, feeding your branches into the chipping chamber.

TS.COCKPIT CONTROL

The new generation on-board computer enables complete management of the machine via an ergonomic colour display screen.

	WS20DT
Engine	Kohler KDI 1903 ST.V 56CV
Engine cylinder (cm3)	1903 cm3 / 3-Cyl.
Fuel	Diesel
Clutch	Free wheel
Diameter of cutting disc (mm)	900
Weight of cutting disc (kg)	218
Width of infeed roller (mm)	310
Diameter of infeed roller (mm)	240
Fuel tank (L)	50
Pivotable blowout chimney (°)	270
Homologation MMTA (kg)	2000
Hopper size P x L (mm)	1 540 x 1 290
Height of feeding (mm)	870
Reference	WS20DT
Comfort Kit	KITWS20DT-P

The WS20DT ensure high performance on all your sites, equipped as standard with TS.Cockpit and grouped lubrication.

Its large loading hopper makes it easy to feed branches and folds away during transport for optimum efficiency. Machine maintenance and monitoring are simplified by its ultra-robust design and TS.Cockpit control screen. Its covers are designed to increase practicality and facilitate maintenance.

The WS20DT is also available in a dual-axle version (optional) and a PTO (power take-off) version.

CUTTING DISC

KOHLER KDI 1903 ST.V 56HP ENGINE

UP TO 20 CM

TS INDUSTRIE TECHNOLOGY

CUTTING DISC

Heavy cutting disc equipped with two resharpenable knives passing in front of a counter knife to make a clean cut of the material and chip the branches evenly.
